PART 1 – ANNUAL BUDGET

1.1 Mayor's Report

In his Budget Speech to Parliament on 21 February 2018, the Minister of Finance stated that “Local governments continue to face significant financial management and governance challenges. Too many municipalities do not charge tariffs that reflect the full cost of the services they deliver, in particular for water services. **Many municipalities do not collect the funds that are owed to them, and do not adopt credible budgets. As a result, they are unable to pay their own creditors.** National government already provides extensive capacity support to municipalities, but over the period ahead we will review the effectiveness of these different support measures and introduce a new instrument designed to assist the turnaround of some of the most troubled municipalities.

The Mpofana Local Municipality have limited financial resources to satisfy the unlimited needs of the people. The municipality continues to provide electricity to the Mpofana Community at substantial loss as the people are not paying for this service. This is one of the challenges that has resulted in the municipality's dire financial situation which coupled with other challenges has seen the municipality being placed under administration by KZN COGTA in terms of section 139 (1) (b) of the Constitution.

The municipality welcomes this intervention by KZN COGTA as it will restore focus on service delivery; enhance revenue collection, improved institutional capacity and performance as well as the attainment of the Constitutional Objects of Local Government.

The municipality is currently operating with an unfunded budget due to escalating operational cost and high outstanding creditors. In order to remedy this situation, cost curtailment measures are being implemented and this is in line with administrators' council adopted recovery plan.

.....
The Mayor: Concillor X Duma

1.2 Council Resolution (*copy attached*)

On 29 March 2018 the Council of Mpofana Local Municipality met in the Council Chambers of the Municipality to consider the annual budget of the municipality for the financial year 2018/19. The Council approved and adopted the following resolutions

1. The Council of Mpofana Local Municipality, acting in terms of section 24 of the Municipal Finance Management Act, (Act 56 of 2003) approves and adopts:
 - 1.1. The annual budget of the municipality for the financial year 2018/19 and the multi-year and single-year capital appropriations.
 - 1.2. The financial position, cash flow budget, reserve/accumulated surplus, asset management and basic service delivery targets
2. The Council of Mpofana Local Municipality, acting in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) approves and adopts with effect from 1 July 2018 Budget related policies and other finance policies i.e:
 - 2.1. the draft tariffs for property rates
 - 2.2. the draft budget policy
 - 2.3. the credit control and debt collection policies
 - 2.4. the ash Management and Investment Policy
 - 2.5. the draft SCM policy
 - 2.6. the draft asset management policy

1.3 Executive Summary

The application of sound financial management principles for the compilation of Mpofana Local Municipality's financial plan is essential and critical to ensure that the municipality recovers from the financial distress without compromising the service delivery and core competencies of the municipality. The communities are still expecting high quality of service more especially the basic services.

This draft budget is informed by the assessment that was done by KZN Provincial Treasury on the adjustment budget. MFMA section 23(1) b states that the municipal council must consider any views of the national treasury, the relevant provincial treasury and any provincial or national organ of the state or municipalities which made submissions on the budget.

Based on the aforementioned assessment the municipality's budget for 2018/19 financial year was declared by the KZN Provincial Treasury as not fully funded. To remedy the situation all budget items presented on the draft budget were reviewed taking cognisance of findings raised by KZN Provincial Treasury and other inputs received from Treasury.

The main challenges experienced during the compilation of the draft budget for the 2018/19 MTREF can be summarised as follows:

- The municipality does not have cash reserves to fund its budget;
- The budget is mainly funded by government grants;
- Low collection levels of outstanding debtors;
- Unreliable customer information;
- High indigent rate and or unquantified percentage of indigent customers;
- Aging and poorly maintained infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities and current cash position of the municipality;
- Huge reliance on commercial customers to fund the poor performing domestic customers with regards to payment of municipal services such as electricity.
- High employee costs that continue to increase, as well as the need to fill critical vacancies;
- Capital projects can only be funded from grants, no internal funds;
- Long outstanding creditors more specifically the Eskom account; and
- Challenges in the implementation of the *mSCOA*.

1.3.1 Budget assumptions

The following budget principles and guidelines directly informed the compilation of the draft annual budget 2018/19 MTREF:

- The 2017-2018 Adjustment Budget priorities and targets, as well as the base line allocations contained in that Adjustment Budget.
- Intermediate service level standards were used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be affordable and should generally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality;
- No budget was allocated to national and provincial funded projects unless respective grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the annual Division of Revenue Act;
- Reduction, to a lowest level, of the expenditure relating to the following items:
 - Special Projects;
 - Furniture and office equipment;
 - Special Events;
 - Refreshments and entertainment;
 - Ad-hoc travelling and;
 - Subsistence, Travelling & Conference fees (national & international);

Other operating expenditures and allocations to these abovementioned items had to be supported by a list and/or motivation setting out the intention and cost of the expenditure which was used to prioritise expenditures.

In view of the aforementioned, the following table is a consolidated overview of the proposed 2018/19 Medium-term Revenue and Expenditure Framework:

Table 1 Consolidated Overview of the 2018/19 MTREF

R thousands	Adjustment Budget 2018/19	Budget Year 2018/19	Budget Year +1 2019/20	Budget Year +2 2020/21
Total Operating Revenue	137 640	144 247	148 734	159 559
Total Operating Expenditure	154 876	172 951	176 231	187 422
<i>(Surplus)/Deficit for the year</i>	(17 236)	(28 694)	(27 487)	(27 852)
Total Capital Expenditure	15 164	16 878	12 031	12 456

1.3.2 Total Operating Revenue

Total operating revenue has grown by 3 per cent or R 4.6 million for the 2018/19 financial year when compared to the 2018/19 Adjustments Budget. For the two outer years, operational revenue will increase by 3 per cent and 8 per cent respectively, equating to a total revenue growth of R15.7 million over the MTREF when compared to the 2018/19 financial year.

1.3.3 Total Operating Expenditure

Total operating expenditure for the 2018/19 financial year has been appropriated at R 172 million and translates into a budgeted deficit of R 28, 7 million. When compared to the 2018/19 Adjustments Budget, operational expenditure has grown by 12 per cent in the 2018/19 budget and by 2 and 6 per cent for each of the respective outer years of the MTREF. The operating deficit for the two outer years is R 27, 5 million and R 27, 9 million.

1.3.4 Total Capital Expenditure

The capital budget of R16.9 million for 2018/19 is 11 per cent more when compared to the 2017/18 Adjustment Budget. The **increase is due to an allocation of R 5million being made for the once purchase of plant and equipment.** It is worth noting that there was a budget cut on the MIG Allocation for 2018/19 as announced by the Finance Minister. The Mpofana budget was reduced by 2.34 percent.

1.4 Operating Revenue Framework

For Mpofana Local Municipality to continue improving the quality of services provided to its citizens it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The municipality has identified that there are challenges within its revenue value chain which could potentially be turned around to opportunities. The municipality is currently faced with an increasing arrear debt which requires urgent attention. Given the challenges in the revenue value chain a revenue enhancement strategy is being formulated which is centered around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the Mooi River Area and continued economic development;
- Efficient revenue management, which aims to ensure a 95 per cent annual collection rate for property rates and other key service charges;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Determining the tariff escalation rate by establishing/calculating the revenue requirement of each service;
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- Increase ability to extend new services and recover costs;
- The municipality's Indigent Policy and rendering of free basic services;

The following table is a consolidated summary of the adjusted 2016/17 MTREF (*classified by main revenue source*):

Table 2: Summary of revenue classified by main revenue source

1.4.1 Property Rates

The property rates have been increased by 6 percent from the Adjustment Budget for 2017/18 which is about R 1 million. The increase in the property rates was informed by the MFMA Circular no 91 which indicated a Consumer Price Index increment of 3 to 6 percent. In line with the Circular the rates were capped at 6 percent. The categories of rateable properties for purposes of levying rates and the proposed rates for the 2018/19 financial year based on a 6 per cent increase from 1 July 2018 is contained below:

Table 5 Comparison of proposed rates to levied for the 2018/19 financial year

1.4.2 Electricity

The Electricity Charges have been increased by 6.84 percent from the Adjustment Budget for 2017/18 which is about R 3.8 million. The increase in the electricity tariffs was informed by the MFMA Circular no 91 read in conjunction with the NERSA Consultation Paper on the Municipal Tariffs Guideline Increase, Benchmarks and Proposed Timelines for Municipal Tariff Approval Process for the 2018/19 Financial Year. The categories of electricity users for purposes of levying the tariffs and the proposed increase for the 2018/19 financial year based on a 6.84 per cent increase from 1 July 2018 is contained below:

1.4.3 Refuse

The budgeted amount in respect refuse is calculated based on the number of consumers receiving the service in 2017/18 financial year. Based on the Adjustment Budget for 2017/18 financial year refuse charges were increased by 6 percent which is R 489 thousands.

The categories of refuse for the purposes of charging refuse and the proposed rates for the 2018/19 financial year based on a 6 per cent increase from 1 July 2018 is contained below

	Tariff 2017 / 2018	Tariff 2018 / 2019
REFUSE CATEGORY	Current	Draft
Refuse Domestic Mooi River & Rosetta	72,72	77,08

Landfill Site - Bakkie	209,75	222,34
Landfill Site - Truck (1 - Up To 5 Ton)	-	438,60
Landfill Site - Truck (6 Tons and more)	1 316,67	1 395,67

1.4.4 Rental of facilities and equipment

The revenue from rentals has been increased by 6 percent from the Adjustment Budget for 2017/18 which is about R 7 thousands. The increase in the revenue from rentals was informed by the MFMA Circular no 91 which indicated a Consumer Price Index increment of 3 to 6 percent.

1.4.5 Interest earned – external investment

The interest earned on external investment has been increased by 6 percent from the Adjustment Budget for 2017/18 which is about R 6 thousands. The increase in the interests earned was informed by the MFMA Circular no 91 which indicated a Consumer Price Index increment of 3 to 6 percent. Furthermore, given the dire financial situation of the municipality it is expected that the municipality will not be investing extensively during the 2018/19 financial year, however this is expected to improve in the outer years.

1.4.6 Interest earned – Outstanding Debtors

The interest earned on outstanding debtors has been increased by 6 percent from the Adjustment Budget for 2017/18 which is about R 6 thousands. The increase in the interests earned was informed by the MFMA Circular no 91 which indicated a Consumer Price Index increment of 3 to 6 percent.

1.4.7 Fines and penalties

The fines and penalties have been increased by 5 percent from the Adjustment Budget for 2017/18 which is about R 436 thousands. The increase in the revenue from rentals was informed by the MFMA Circular no 91 which indicated a Consumer Price Index increment of 3 to 6 percent.

1.4.8 Licenses and permits

The revenue from rentals has been increased by 5 percent from the Adjustment Budget for 2017/18 which is about R 135 thousands. The increase in the revenue from rentals was informed by the MFMA Circular no 91 which indicated a Consumer Price Index increment of 3 to 6 percent.

1.5.2 Employee Related Costs

The budgeted allocation for employee related costs for the 2018/19 financial year totals R 37 million, which equals 22 per cent of the total operating expenditure. Salary increases have been factored into this budget at a percentage increase of 5.42 per cent for the 2018/19 financial year. This figure could possible change as the salary and wage collective agreement for the period 01 July 2015 to 30 June 2018 has come to an end and the process is under consultation. The municipality is also implementing cost curtailment

measures; the overtime for employees has been reduced to bear minimum on the draft budget as only department(s) rendering essential services is budgeted overtime.

1.5.3 Remuneration of Councillors

The cost associated with the remuneration of councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). **No provision for increment has been made for councillors as the municipality is under administration in terms of section 139 (1)(b) of the Constitution. Furthermore, concurrence for the upper limits implementation from MEC of KZN CoGTA is still outstanding.**

1.5.4 Debt impairment

In an attempt to minimise debt write offs and as part of revenue collection, the municipality has appointed debt collectors with the sole purpose of ensuring maximum recovery of outstanding debts. This process has already started and parallel to it is the implementation of revenue enhancement strategies with will also improve customer services. Therefore against this background and the provisional calculations of provision for debt impairment using treasury guidelines an amount of R 10.5million has been put aside as debt impairment for 2018/19.

NB: The basis for our provision for impairment calculation is as follows:

- The debtors' book as at the end of December 2018
- The split of the revenue billed according to services
- The status and classification of accounts / consumers in the debtors book as "active and inactive"
- Utilisation of the following matrix in line with best practice and treasury guidelines:

Indicators	Debtor type			
	Residential	Commercial	Indigent	Government
Aging between 0 – 30 days outstanding	4	4	0	4
Aging between 30 – 90 days outstanding	3	4	0	4

Indicators	Debtor type			
	Residential	Commercial	Indigent	Government
Aging between 90 – 120 days outstanding	2	3	0	4
Aging between 120 – 180 days outstanding	1	2	0	4
Aging more then 180 days outstanding	0	1	0	4
Active account	1	1	0	2
Inactive account	0	0	0	1
Owners' account	1	1	0	2
Tenants' account	1	1	0	2
List of other examples				
MAX points that can be earned	6	6	0	8

Scoring matrix

Scoring	Residential	Business	Indigent	Government
0 – 4	Most probably impaired	Most probably impaired	Most probably impaired	Most probably impaired
0	100% of debtor amount	100% of debtor amount	100% of debtor amount	100 % of debtor amount
1	80% of debtor amount	80% of debtor amount	80% of debtor amount	80% of debtor amount
2	60% of debt amount	60% of debt amount	60% of debt amount	60% of debt amount
3	40% of debt amount	40% of debt amount	40% of debt amount	40% of debt amount
4	20% of debt amount	20% of debt amount	20% of debt amount	20% of debt amount
5 – 8	Probably not impaired	Probably not impaired	Probably not impaired	Probably not impaired

1.5.5 Depreciation

Provision for depreciation and asset impairment has been informed by the Municipality's Asset Management Policy. Depreciation is widely considered a proxy for the measurement of the rate asset consumption. Budget appropriations in this regard total R 13, 7 million for the 2018/19 financial and equates to 8 per cent of the total operating expenditure.

1.5.6 Finance charges

Finance charges consist primarily of the interest payment on the Eskom outstanding account. Whilst the municipality has concluded a repayment plan for the Eskom account and the interest debt element was frozen it is prudent to set aside some funds for interest charges on late payment given the history and the financial condition of the municipality.

1.5.7 Bulk Electricity Purchases

Bulk purchases are directly informed by the purchase of electricity from Eskom. The annual price increases have been factored into the budget appropriations and directly inform the revenue provisions. The expenditures include distribution losses.

1.5.8 Contracted services

The municipality is implementing cost curtail measures which will also focus on the review of existing and expired contracts the municipality has with service providers. Non-priority contracted expenditures will be reviewed with an intention to reduce commitments on non-essential services.

1.5.9 Other expenditure

Other expenditure comprises of various line items relating to the daily operations of the municipality. This group of expenditure has also been identified as an area in which cost savings and efficiencies can be achieved. Furthermore non-priority expenditures have been reduced to zero. All the others have been reduced to a minimum.

Table 9: Operating Transfers and Grant Receipts

Description	Allocation
Local Government Equitable Share	32 003
